8-Port Gigabit Desktop Switch with 8-Port PoE provides the seamless network connection. It integrates 1000Mbps Gigabit Ethernet and 10/100Mbps Fast Ethernet network capabilities.

8 Auto-Negotiation RJ45 ports (port-1 to port-8) of the switch support Power over Ethernet (PoE) function. These PoE ports can automatically detect and supply power with those IEEE 802.3af compliant Powered Devices (PDs). In this situation, the electrical power is transmitted along with data in one single cable allowing you to expand your network where there are no power lines or outlets, where you wish to fix devices such as APs, IP Cameras or IP Phones, etc.

#### Easy To Use

Easy to install and use. It requires no configuration and installation. With desktop design, outstanding performance and quality, the 8-Port Gigabit Desktop Switch with 8-Port PoE is a great selection for expanding your home or office network.
