This adapter allows to connect IP cameras without POE compatibility (or other devices with 12V power supply) directly to a POE switch. The injector/splitter converts the POE voltage from 48V to 12V.

Features

- Support IEEE802.3af PoE standard
- Support 10/100M Data Transmission
- DC12V output, used for various small network devices.
- Circuit Insulation blocking, effective protection of powered device.
- Connector : 5.5mm*2.1mm

Specifications:

Standard: IEEE802.3af, 15.4Watts, Power over Ethernet
POE Power Supply Method: 1/2(+),3/6(-);4/5(+),7/8(-)
Input: 44-57V DC
Output:DC12v
Transmission Rate: 10/100Mbps
Network Protocol and Standards:
IEEE 802.3i 10BASET
IEEE 802.3u 100BASETX
IEEE 802.3x Flow Control
IEEE 802.1af DTE Power via MDI
IEEE 802.3af
Led Indicator: POE input indicator; PD output indicator
Working Temperature 0°C~55°C
Working Humidity: 10%~90%(no condensation)
Storage Temperature: -20°C~75°C
Storage Humidity: 10%~95%(no condensation)
Product Size: 83 x 28 x 22mm
Weight: 58g
